

10th Symposium of Chemistry Students

10th and 11th of October 2025

University of Zagreb Faculty of Science,

Department of Chemistry,

Horvatovac Street 102a, 10000 Zagreb, Croatia

www.sisk.hkd.hr

sisk@hkd.hr

Goals of the 10th Symposium of Chemistry Students

- ✿ gathering of students of chemistry and related fields
- ✿ presentation of scientific research done by bachelor and master students
- ✿ developing contacts and collaboration between students and student organizations
- ✿ international community
- ✿ establishment of scientific and business collaborations
- ✿ sharing examples of good practice in teaching, non-formal education and popularization of science
- ✿ educational and entertaining content

What did the last Symposium look like?

315 participants

6 plenary lectures

4 invited lectures

12 (student) lectures and 16 posters

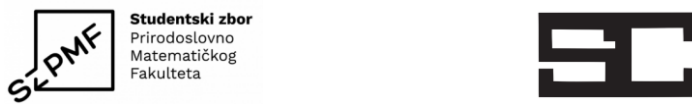

Sponsors of the 9th SiSK:

Donors of the 9th SiSK:

Financial aid of the 9th SiSK:

Partners of the 9th SiSK:

Thank you!

Dear Sir or Madam,

Symposium of Chemistry Students (SiSK, cro. *Simpozij studenata kemičara*) is a free annual science conference organized by the Student Section of the Croatian Chemical Society (SSHKD, cro. *Studentska sekcija Hrvatskog kemijskog društva*) intended for students of undergraduate and graduate degrees in chemistry and related fields from all over Croatia and beyond. From 2014 to 2023, eight one-day meetings were held, and in 2024, the event was extended to two days. The previous Symposiums gathered a total of 1800 participants, with the 9th SiSK having been attended by more than 300 participants. Continuing the tradition from the 9th Symposium, the official languages of the 10th SiSK will also be Croatian and English. Following the motto of the SiSK organization, "students for students", the Symposium provides the opportunity for students to present their scientific research in the form of oral or poster presentations. In addition to student presentations, the program regularly features plenary and invited lectures, and, since last year, round-table discussions during which students can engage with topics relevant to their interests and future careers as chemists.

The Student Section of the Croatian Chemical Society (SSHKD) was founded in 1997 to gather chemistry students of different profiles and interests to actively participate in society. Since its establishment until today, the Section has organized numerous workshops, forums, lectures, excursions, as well as informal gatherings of Section members, with the intention of meeting new acquaintances, exchanging knowledge and experience. In addition to the project of the Symposium of Chemistry Students, the Section also carries out numerous scientific popularization projects intended for students and the general population: Purple in Chemistry (cro. *Ljubičasto u kemiji*), Scientific Charms (cro. *Znanstvene čarolije*) and the Popularization Division (PO) "Entropy" (cro. *Popularizacijski odjel „Entropija“*).

The 10th edition of SiSK, 10th Symposium of Chemistry Students, will be held on the 10th and 11th of October 2025 at the Department of Chemistry of the Faculty of Science in Zagreb. The program is designed to not only include numerous formal activities, but also allow enough time for informal communication among students, as well as between students and guests from academia and industry who regularly participate in the Symposium.

Given that the Symposium of Chemistry Students is free of charge for all participants, we rely on financial support to successfully carry out this project. We would like to take this opportunity to once again thank all our sponsors, donors, partners, associates and patrons who have supported us in our work so far. We also invite you to support this important gathering—whether financially or materially—to help us make the next edition of the Symposium of Chemistry Students even better than the last. We look forward to successful collaboration and hope you will recognize the importance of this student project, because only with your support can we continue to support chemistry students in becoming outstanding experts who will contribute to the development of science, industry and society as a whole through their work.

Sincerely,

Organizing Committee of the 10th Symposium of Chemistry Students

SPONSORSHIP PACKAGES

We express our sincere gratitude to all our supporters so far,
without your support, none of this would have been possible!

General sponsorship offer

- pronounced visibility and accessibility to all event participants
- possibility to promote products or services
- the possibility of sharing promotional materials
- highlighting logos on printed and online promotional materials
- presentation of sponsors on social networks

Golden sponsors

900€ or more

- placement of advertising banners at the entrance to the Symposium
- special positioning of the logo on all printed materials
- handing out sponsor promotional materials at the registration desk
- distribution of sponsor's advertising materials in packages for participants
- exhibition area during the entire Symposium (2 tables)
- invited lecture or similar presentation during the Symposium (20 min)
- highlighting the sponsor in the additional activities of the marketing campaign
- separate post on social networks
- projecting the logo on the screen before the start of the lecture

Silver sponsors

700 – 899,99€

- placement of advertising banners at the entrance to the Symposium
- special positioning of the logo on all printed materials
- distribution of sponsor's advertising materials in packages for participants
- exhibition area during the entire Symposium (1 table)
- short presentation during the Symposium (10 min)
- separate post on social networks
- projecting the logo on the screen before the start of the lecture

Bronze sponsors

500 – 699,99€

- special positioning of the logo on all printed materials
- distribution of sponsor's advertising materials in packages for participants
- exhibition space during the time provided for it in the program (1 table)
- collective announcement of all bronze sponsors on social networks
- projecting the logo on the screen before the start of the lecture

Sponsors

250 – 499,99€

- special positioning of the logo on all printed materials
- distribution of sponsor's advertising materials in packages for participants
- exhibition space during the time provided for it in the program (1 table)
- collective announcement of all sponsors on social networks
- projecting the logo on the screen before the start of the lecture

Donators

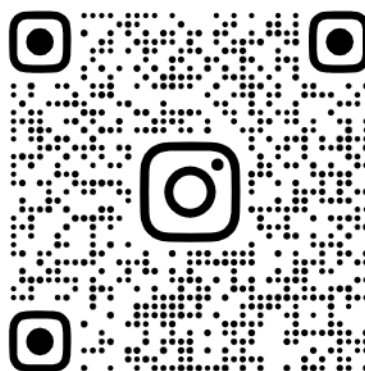

less than 249,99€

- showcasing logo on all printed materials
- distribution of sponsor's advertising materials in packages for participants
- collective announcement of all donators on social networks
- projecting the logo on the screen before the start of the lecture
